

**MASS
IMMIGRATION
ONLY HELPS
THE GLOBALIST
ELITE**

**WHY WOULD
WE EVER WANT
MORE
IMMIGRANTS?**

Immigration Hurts Everybody

- Wage Stagnation
- Higher Prices
- Less Housing
- Housing Affordability
- Fewer Jobs
- Market Manipulation
- Wealth Inequality
- Political Gerrymandering
- Cultural Polarization
- Increased Crime
- Brain Drain
- Wealth Remittances

IMMIGRATION HURTS OUR SOCIETY

CRIME

Not all cultures are equal. Immigration from the non-developed world means an increase of immigrants from places like Haiti or Somalia where their cultures have failed to construct a thriving society and crime is rampant.

BIRTHRATES

According to the Center for Immigration Studies, immigration has an indirect effect on lowering the natural fertility rate of American citizens. Because immigration hurts wages, the housing supply, and increases diversity, this harms the ability of Americans to start a family and raise children.

ENVIRONMENT

According to the Census Bureau, America has over 340 million people. If America continually imports millions of people in a mass migration scheme, it means the continual replacement of American farmland with urban expansion to meet the housing demands of immigrants, and a dramatic consumption of natural resources to accommodate the needs of immigrants. This means the destruction of America's beautiful landscapes and resources to feed the globalist machine.

IMMIGRATION HURTS OUR ECONOMY

WAGE STAGNATION

One of the basic laws of economics is supply and demand. Immigration increases the supply of labor in a country at an unnatural rate to the natural birthrate of a country. This causes increased competition for working Americans that allows the globalist class to keep wages low.

WEALTH INEQUALITY

Because immigration harms wage growth and increases competition for working Americans, this allows a greater retention of wealth for the globalist class because working Americans have less money to build their own means of becoming wealthy through investments like purchasing a home or starting a small business.

WEALTH REMITTANCES

Many immigrant groups that move into the country are well known for working a job in the country simply to send money back to their own country. According to the World Bank, in 2023 over \$90.000.000.00 billion of wealth was transferred out of America by immigrants. This is money that does not stay in the American economy and leaves our country to not be reinvested in American business.

HOUSING SUPPLY

Immigration means more people for fewer houses. Based on supply and demand, if the supply of houses is low, but the demand is high, prices for homes for American families will increase. Housing supply could easily meet the pace of a natural population rate, but American home construction cannot keep up with mass migration.

IMMIGRATION HAS BEEN WEAPONIZED TO UNDERMINE THE REPUBLICAN FORM OF GOVERNMENT THAT OUR FOUNDERS FOUGHT FOR. THE TRUE INTENT IS TO DESTROY WHITE CHRISTIAN AMERICA. GLOBALISTS DO NOT CARE ABOUT THE THIRD WORLD - THEY ONLY WISH TO CREATE CHAOS.

IMMIGRATION HURTS OUR POLITICAL SYSTEM

GERRYMANDERING

Whether new immigrants are allowed to vote or not, the presence of immigrants, legal or illegal, provides an opportunity for politicians to manipulate electoral maps to artificially give more political power in Congress and the Electoral College to states like California or New York.

POLARIZATION

Immigrants often come from places that are culturally incompatible with American values. They also immigrate from places in direct political conflict with America. This polarizes American culture and politics as Americans become divided amongst themselves with competing loyalties to other countries or other ideals that are contrary to the ones that America was founded on.

IMMIGRATION WEAPON

The Globalist Class uses immigration as a wedge issue and political weapon to control and divide the American political system so that American culture can be changed and pacified and eventually replaced. This allows America to be used as a weapon in foreign wars and conflicts to protect globalist interests at the expense of American liberty and lives.
